ENDPOINT MANAGER FEATURE CAPABILITIES

Configure any Major OS

Manage your device's operating software to ensure Linux, Windows or Mac systems are optimized, protected and secured.

Network Management

The scan will identify both managed and unmanaged devices. You can configure EM to alert you if a scan finds new devices.

Recommended Security Policy

Each profile lets you specify a device's network access rights, overall security policy, antivirus scan schedule settings.

Patch Management

Update your devices, OS, and 3rd party applications manually or automatically through one consolidated list.

Cloud-Based Architecture

Our lightweight agent to collect information and drill down into incidents with base-event-level granularity.

Alerts and Notifications

Create procedures and monitors to track certain activities and generate an alert if their conditions are met.

Valkyrie Verdict Decision Engine

Our global threat intel provides real-time analysis, returning a verdict within 45 seconds for 95% of the files submitted.

Auto Containment Compatibility

Automatically runs from patented virtual container that does allow threats to access the host system's resources or user data.

Bulk Device or User Enrollments

Push or rollback updates more efficiently with bulk installation area lets you download the communication package.

About Comodo

Tel: +1 (888) 551-1531 Tel: +1 (973) 859-4000 Comodo is the world's leader of next-generation open-source cybersecurity, with the industry's most disruptive innovations.

We help customers stop breaches with groundbreaking isolation technology that neutralizes ransomware, malware and cyber-attacks. Our complete cloud-native framework delivers a zero-trust architecture with active breach protection for the most comprehensive defense against zero-day threats. Comodo's cybersecurity products maximize intelligent sharing between every component of the platform, therefore providing superior security. We are the only company that analyzes and gives a trusted verdict for 100% of files on a network.
