

TRUSTED ADVISORY COUNCIL

MOST VALUABLE PROFESSIONAL (MVP) PROGRAM

TRUSTED ADVISORY COUNCIL | MVP PROGRAM

Xcitium MVPs are cybersecurity experts who share their knowledge and insights with the cyber community. They are always curious about “what is next,” and they have an unstoppable urge to get their hands on new, exciting security technologies. Their focus is to help communities be cyber aware, assess emerging security methodologies, and work to unite cohorts against attackers and adversarial tradecraft.

Xcitium MVPs have very deep knowledge of cybersecurity, the entire threat landscape, and evolving products, services and methodologies used to combat bad actors. They are also able to bring together diverse platforms, vendors, and solutions, to make informed recommendations and to help solve real world cybersecurity problems.

Xcitium MVPs are also Influencers who are driven by their passion, community spirit, and quest for knowledge. Above all, and in addition to their deep and expansive technical abilities, Xcitium MVP Influencers are always willing to help others, and that is what sets them apart.

MVP AWARD

The MVP Award is a heart-felt **THANK YOU!** to outstanding cybersecurity community leaders. In their efforts to reach out to cybersecurity communities world wide, MVP Influencers perform many of the following actions:

- Sharing Xcitium’s passion of Open Source cybersecurity projects
- Speaking engagements
- Social media posts
- Authoring of books and cybersecurity blogs
- Assisting others in online communities

Key benefits to MVP influencers include:

- Early access to Xcitium products
- Direct communication channels with Xcitium product teams
- An invitation to the Global Xcitium Influencer Summit, an exclusive annual event hosted at our global HQ
- A close relationship with Xcitium teams
- An executive recognition letter and formal award

NOMINATION PROCESS

To be considered for the Xcitium MVP Award, a nomination referral must be first submitted on your behalf by either an Xcitium Full Time Employee (FTE) or an Xcitium Influencer.

Following a referral submission, a candidate is sent a link to complete an MVP award nomination application. The process can take up to 90 days. If you have any questions, please contact the Xcitium MVP channel.

OTHER ORGANIZATIONS WITH MVP PROGRAMS:

MICROSOFT | CISCO | ADOBE | CITRIX | VMWARE

Xcitium, formerly known as Comodo Security Solutions, is used by more than 3,000 organizational customers & partners around the globe. Xcitium was founded with one simple goal – to put an end to cyber breaches. Our patented Xcitium Essentials ZeroDwell technology uses Kernel-level API virtualization to isolate and remove threats like zero-day malware & ransomware before they cause any damage to any endpoints. ZeroDwell is the cornerstone of Xcitium’s endpoint suite which includes pre-emptive endpoint containment, endpoint detection & response (EDR), managed detection & response (MDR), and managed extended detection and response (M/XDR). Since inception, Xcitium has a track record of zero breaches when fully configured.
